Introducing...

GasTrap™ The NEW self-cleaning gas filters

Increase the purity of your gas lines

Are you using compressed gases and disposable filters?
Are disposable gas filters using a large proportion of your consumables budget?
Are you looking to reduce baseline 'noise' from impure gases?
Then GASTRAP™ gas purifiers are the answer.

Eliminate disposable filters - save money.
Achieve high purity from 99.996% gas feed.
Silent running, with compact footprint.

GASTRAP™ gas purifiers and generators reduce impurities by a factor of 20.
Start with 15ppm impurity levels and reduce to 1.5ppm
Self-cleaning making disposable gas-line filters redundant
Ideal for analytical devices. (GC/MS/LCMS/ELSD)

Model	Gas
GT-H2	Hydrogen
GT-He	Helium
GT-N2	Nitrogen
GT-Ar	Argon
GT-Air	Air
GT-Air+N2	Air & Nitrogen
GT-ZN2	Zero Nitrogen
GT-Zair	Zero Air

All GasTrap Purifiers are 130 x 180 x 300mm tall, weigh 5Kg

GTG-LCMS	Nitrogen
GTG-N500	UHP Nitrogen
GTG-ELSD	Nitrogen
