New Generation Liquid Nitrogen Plants

CNP10 - Compact, Economic and Elegant

CNP10 arrives as a plug-and-liquify system with external compressor and chiller to lower the noise in the plant room. A fully integrated design and one button operation allows you to place CNP series liquifiers in the research labs or clean rooms. Its modular design takes a little space and allows you to extend your liquification capacity. Simply make the electrical connections and produce your own liquid nitrogen by a fully automated operation with a user friendly interface of its PLC controller. Operator only needs to replace the filters and perform routine checks between maintenance intervals of 6500 operating hours.

Production Rate ≥ 10 liter/day (≥12l/day@23°C)

Electrical Rating 110/200/220/230/240VAC, 50Hz/60 Hz, 1Ph

Power Consumption (Steady State) 2.2 kW @ 50Hz / 2.4 kW @ 60Hz

Dimensions 765 mm (W) x 1430 mm (L) x 1388 mm (H)

Weight 250 kg (Empty) / 300 kg (Full)
Built-in Air Compressor Oil-free air compressor

Cryocooler GM type cryocooler mounted on Dewar

Compressor He, 99.999% purity @ 18.3-19bar (265-275psig), Air cooled

(Water cooling is optional)6" Color Graphic Touch Screen

Dewar Volume 40 liters (32 gallons) (60 lt optional)
Operating Pressure 1.5 bar

Dewar Level Control Capacitive level sensor

Features Easy installation, fully automatic start and stop operation by PLC which

supports efficient troubleshooting, the monitor displays the operational status of the plant and the failures triggered by safety devices and sensors, single switch operation, control all components through the diagnostic screen, LN_2 transfer by one button, Automatic re-start after power failure.

Built-in Nitrogen Generator

Human Machine Interface

Purity ≥ 99%

Dew Point up to -70°C (-94°F) Flow Rate \geq 0.6 m³/hour Ambient Temperature Range +5°C to +40°C

Maximum Altitude 3 000 meters (10 000 feet)

Noise Level < 65 dB @ 1 meter

Standards CE Conformance – ISO 12100:2010, IEC 60204-1, 2006/42/EC, 97/23/EC; ISO

9001:2015
