IKA PETTE MicroKit A
IKA PETTE Package

Package includes:

- › IKA PETTE vario 0.1 – 2 µl
- › IKA PETTE vario 0.5 – 10 µl
- › IKA PETTE vario 10 – 100 µl
- › Linea
- › Tip xs box
- › Tip s box

An ergonomic feel combined with uncompromising precise performance: the IKA pipettes have been devised for use in many applications typical in a modern laboratory. Color coding makes it simple to find the right pipette. The fact that they are resistant to impact, UV and chemicals ensures the pipettes will provide long-term reliable dispensing. The PETTE is fully autoclavable, therefore ensuring easy sterilization. This guarantees fault-free, precise and safe operation.

Each package consists of three variable volume pipettes, a complimentary stand and boxes with matching pipette tips. This makes them a convenient starter package for every researcher!

IKA PETTE MicroKit B
